

Data Act Notice - Toughbook Computer Products

Panasonic is committed to ensuring that any data generated by our connected products and related services is used fairly, lawfully, and securely. We place high importance on compliance with Regulation (EU) 2023/2854 (the “Data Act”)

This Notice is intended to tell Users which data can be generated by the products we sell and our related services. Where we are Data Holder under the Data Act for data generated by our products or related services, we will also tell you how we use such data, what rights and obligations users have for such Data, how users can get access to such Data and where to go in case of complaints. You will also find contact information for any questions related to data handling.

This Notice must be read jointly with, and is without prejudice to, the applicable data privacy notice, which shall prevail over this Notice as concerns personal data.

DATA GENERATED BY OUR PRODUCTS

Our products and services can generate data on an ongoing data, please see information below. Such product data can be accessed and used for diagnostics purposes in case a product is handed over for service and maintenance. Where we access such data for diagnostic purposes, the data will not be exported or used for other purposes and will be deleted after the diagnostic is done.

PRODUCT/ PRODUCT CATEGORY/ SERVICE	Data	Format and estimated data volume	Collection frequency	Storage	Duration of retention	How can it be accessed?	How the user may erase the data
Toughbook (33/40/55/G2)	UEFI data, such as total accumulated operating hours of the device	Format: raw data < 1 Megabyte	Continuously	On the device	Indefinite	Data can be accessed on the device (BIOS screen)	N/A
Toughbook (33/40/55/G2)	Battery diagnostic information, such as temperature thresholds, power output, battery cell health, etc.	Format: raw data < 1 Megabyte	Continuously	On the device	Indefinite	Data can be accessed on the device (PC information viewer)	N/A
Toughbook (33/40/55/G2)	Disk drive diagnostic information, such as overall drive health, recorded failures, accumulated operating hours, predicted lifecycle.	Format: raw data < 1 Megabyte	Continuously	On the device	Indefinite	Any third party application to download data.	N/A

Related services may be provided in relation to the connected product and generate data or access some or all of the product data above. If Panasonic is not the provider of such related service, the relevant provider will have to provide you with a similar notice containing the pre-contractual information about the data generated by such third party related services. This can occur among others if the connected

product comes with (pre-)installed software which can also generate data, such as for example, and without this list being exhaustive:

- **Microsoft**
- **Intel**
- **Waves Audio Ltd**
- **Realtek**

Panasonic is the initial seller of the connected product. If the connected product is (re)sold, leased, or rented, it will be up to each reseller, sub-lessor or sub-rentor to comply with the pre-contractual information obligation outlined in Article 3(2) of the Data Act. The reseller, sub-lessor or sub-rentor must provide a copy of the information contained in this Notice to the repurchaser, sub-lessee or sub-tenant.
