

**FS** FLIGHT  
SIMULATOR

---

## INTRODUCING THE NEW RANGE OF FLIGHT COCKPITS BY NEXT LEVEL RACING®.

Specifically with the flight user in mind, the new range of Flight Simulators are designed for the user to have a more immersive experience by attaching their flight peripheral directly to the cockpit, while achieving accurate ergonomic. The Flight Simulator are suited for Commercial, General Aviation, military, and space travel.

Officially licensed products of the Boeing Company, the Commercial and Military Edition offers a more unique brand experience for the user with the world leading aircraft manufacturer.
