

NEXT LEVEL RACING®

# FLIGHT SIMULATOR SEAT

FLIGHT  
SIMULATION

Introducing the Next Level Racing® Flight Simulator Seat Only. The ultimate solution for flight simulation enthusiasts seeking an unparalleled experience. This meticulously designed flight seat offers support for both Commercial and Military configurations, delivering an authentic and immersive flight simulation experience. Designed with ergonomics in mind, it features a comfortable flight seat with a lumbar cushion, ensuring extended comfort during those long flight sessions. With the included HOTAS cut out, users can achieve a realistic Military configuration, allowing for precise control and an enhanced sense of realism. The double seat recliner levers enable quick adjustments to the backrest angle, providing optimal comfort and locking in lateral structural rigidity. This versatile seat is compatible with a range of Next Level Racing® products, including GTtrack, F-GT (with included adapter brackets), Elite Series Cockpits, Flight Simulator Cockpit, and GTSeat Add-On, providing seamless integration and expanding the possibilities for an exceptional flight experience.
