Storing Portable Power

Tiny but Mighty: Unlimited Power in a Compact Form

Discover compact freedom with our latest 600W portable power station, featuring a 288Wh LiFePO4 battery and 7 outlets, ideal for powering your adventures and outdoor excursions.

Up to 600W with SurgePad™

When you're on the road, sip a cup of freshly ground coffee thanks to Anker SOLIX C300X. You can plug in appliances up to 600W

288Wh LiFePO4 battery

Engineered for longevity and peak performance in every charge.

Built for the Outdoors

With a compact portable design, taking travel-friendly power off-grid has never been this easy. This power station is 10% smaller than the industry average.

7 Outlets

Power Up to 7 Devices

10 Years of Continuous Energy: Sustained Power for Daily Use

Under normal operating conditions, Anker SOLIX C300X PowerHouse batteries are expected to remain in a healthy state for 3,000 charge cycles or equivalent to 10 years of use

EV-Class LiFeP04 Batteries

Safer and reliable for 3,000 charge cycles

Smart Temperature Control

Batteries stay healthy and protected until the last charge

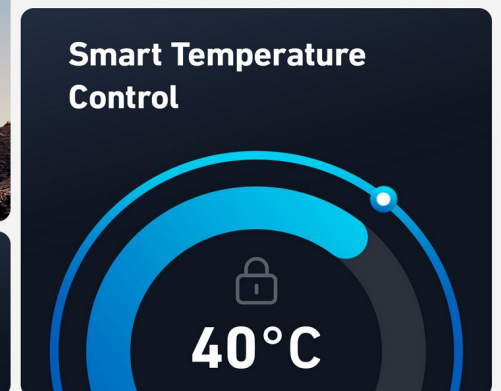

Industrial-Grade Electronic Components

Core electronics last 6x longer

Unibody Drop-Proof Design

Withstands years of heavy usage at home or outdoors

4 Recharging Modes, Anytime, Anywhere

AC Recharging

Last-minute trip? No problem.

Anker SOLIX C300X only takes 70mins to recharge to 100%, so you can camp without power anxiety.

USB-C Recharging

So if you only have a USB-C cable, don't worry. You can still keep powering on anywhere.

Solar

Recharging

Even if you're far away from civilization, you can still power up with a portable solar panel. Recharge to 80% in 2.7H.

Car Recharging

When the road calls, plug the portable power station into your car's auxiliary port to recharge with ease. Now you're set for road trips, camping, and other adventures.

Anker SOLIX C300X DC Portable Power Station

ANKER SOLIX

Anker SOLIX C300X DC Portable Power Station

Enjoy Long-Lasting Portable Power

Tiny but Mighty: Perfect for Various Outdoor Activities

Whether you're camping, attending a concert, going on a short trip, or live streaming outdoors, this power station has you covered.

High Capacity in a Compact Design

- 300Wh Capacity: Provides ample power to keep multiple devices charged throughout the day, ensuring you never run out of juice during outdoor adventures.
- Smallest Size in Its Range: Unmatched portability makes it easy to carry anywhere, whether it's a camping trip, a music festival, or a picnic.

Optimized for Outdoor and Group Use

- Designed for Consumer Devices: Perfect for charging smartphones, tablets, cameras, and other essential gadgets during outdoor activities.
- Ideal for Groups: Supports the power needs of 3-4 people, making it ideal for group outings and events.

Three USB-C Ports with High Output

- 280W Total Output: Fast charging capabilities for multiple devices simultaneously, ensuring everyone's gadgets are powered up quickly and efficiently.
- Future-Proof Connectivity: USB-C ports are compatible with the latest devices, making it a versatile choice for modern users.

Competes with Both Power Banks and Traditional Power Stations

- Bridges the Gap: Offers a higher capacity and more versatile charging options than standard power banks, making it a superior choice for extended outdoor use.
- More Practical than Competitors: While traditional power stations might offer AC ports, this unit's compact size, lightweight design, and USB-C focus provide a more practical solution for many outdoor enthusiasts.

User scenario

Camping Trip

A group of friends is camping in the mountains for a weekend.

Music Festival

Attendees at a multi-day music festival need to keep their devices charged

Live Streaming Event

A content creator is live streaming an outdoor event.

Backyard Movie Night

Friends gather for an outdoor movie night in the backyard.

Group meeting

bunch of peoples gathering for meeting need their devices keep running more flexible

Road Trip

The power station charges their phones, tablets, portable gaming consoles, and a small cooler for food and drinks.
