Roborock Qrevo Curv

01 No Tangles, Just Clean Floors

- DuoDivide Main Brush
- FlexiArm Design Arc Side Brush
- 18 500 Pa HyperForce Suction

02 Reach New Heights

- AdaptiLift Chassis
- 4cm Maximum Threshold Crossing
- Mid-to-Long-Pile Carpet Cleaning

03 Hands-Free. Hassle-Free

- Multifunctional Dock
- 75°C Hot Water Mop Washing
- Intelligent Dirt Detection

04 Smart Control

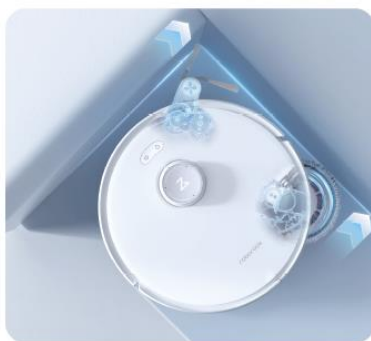

- Hello Rocky Voice Assistant
- Video Call
- Automatic Pet Recognition

Roborock Qrevo Curv

DuoDivide Brush

Experience ultimate cleaning with DuoDivide Brush. Perfect for homes with long hair and pets, certified by SGS, boasting a 100% hair removal rate¹ and a 0% hair tangling rate².

FlexiArm Design Arc Side Brush

The upgraded FlexiArm Design arc side brush ensures a 0% hair tangling rate⁴ and automatically extends to sweep up dirt from hard-to-reach corners and low areas beneath furniture.

4 cm Ultimate Obstacle Crossing⁵

Equipped with a smart liftable chassis system, it easily detects and overcomes thresholds up to 4 cm height, greatly improving cleaning efficiency.

18 500 Pa³ HyperForce Suction Power

18 500 Pa HyperForce suction power, making dirt and dust vanish without a trace.

FlexiArm Design Edge Mopping System

Proactively extends the mop when detecting corners and edges, ensuring thorough and efficient cleaning.

Liftable Brush and Mop

The brushes and mop boast a liftable design and adjust automatically, maximizing cleaning efficiency and preventing any staining of the freshly cleaned floor.

Multifunctional Self-Cleaning Dock

Enjoy the convenience of smart features like auto-emptying, water refilling, self-cleaning, hot water mop washing, hot air drying, and fast charging.

75°C Hot Water Mop Washing⁶

Using 75°C hot water, the mop washing easily dissolves oil stains and disinfects the mop cloths, making them suitable for kitchen and dining areas.

Reactive AI Obstacle Recognition

Using structured light and an RGB camera, the robot vacuum can identify and avoid objects so you don't have to pick up anything.

Intelligent Dirt Detection

Detects mop dirtiness during mop washing and dynamically adjusts the duration of mop wash. Heavily soiled areas are automatically re-mopped.

Specification

| | |
|---------------------------------|--|
