Lenovo ThinkSmart One with Controller

Immersive collaboration is a must for today's hybrid workforce. That's why Lenovo designed ThinkSmart One with Controller, the world's first Windows-based integrated collaboration bar. Combining the high-resolution camera with an extra-wide field-of-view (FOV), premium sound for lifelike clarity, and powerful compute running Microsoft Windows, this solution is ideal for small and medium spaces. Choose between the intuitive Lenovo ThinkSmart Controller or Lenovo IP Controller, each with an anti-glare and anti-fingerprint 10.1-inch, 10-point HD touch display.

Certified for Zoom Rooms and preloaded with ThinkSmart Manager software¹, the Lenovo ThinkSmart One bar is powered by 11th Gen Intel® Core™ vPro™ processors with Intel® Iris® X^e graphics for next-level collaboration. Sharing content on a conference call and running multiple displays is no problem. And with camera, sound, and compute combined in a single device, installation is a snap. Whether Lenovo ThinkSmart One with Controller is set up in a huddle space or medium conference room, its digital clock, modern design, and minimal cables deliver a clean and tidy aesthetic.

¹ Lenovo ThinkSmart Manager comes pre-loaded on all Lenovo ThinkSmart One bars. Lenovo ThinkSmart Manager has two levels: Basic and Premium. Premium is included with your Lenovo ThinkSmart One + Controller purchase for one year. You can choose to continue service for an additional cost.

Lenovo ThinkSmart One with Controller

CAMERA

Lenovo ThinkSmart One creates an immersive space where everyone can be fully engaged—wherever they are—with high frame rates that eliminate distracting lag and distortion, plus an extra-wide FOV. This distinctive collaboration solution provides sharp contrast, vivid colors, and brighter images in low-light environments, as well as intelligent features like auto-zoom, auto-framing, people-counting, speaker-tracking, and whiteboard-awareness.

SOUND

Because the modern workplace requires true audiovisual collaboration, the Lenovo ThinkSmart One experience delivers premium sound for crisp clarity through stereo speakers with high-volume capacity and range. Eight integrated mics with 180-degree wide-range coverage and frequency, plus integrated DSP for echo and noise cancellation, ensure all meeting participants are heard loud and clear.

COMPUTE

Innovation is at the intersection of modern functionality and clean aesthetics. This integrated solution supplies built-in formidable compute running on the Windows IoT platform and powered by the lower energy-consumption 11th Gen Intel® Core™ vPro™ processors with Intel® Iris® Xe graphics. Certified for Zoom Rooms for small to medium rooms, Lenovo ThinkSmart One with Controller set the bar for hybrid collaboration.

collaboration

Collaboration has always been the cornerstone of innovation, but the work-from-anywhere world demands advanced tools for productivity. With camera, audio, and compute in a single form factor, the compact Lenovo ThinkSmart One with Controller deliver an intuitive purpose-built solution. Plus, hybrid teams will thrive with the real-time interaction of Zoom Rooms, making it easy to start a meeting, book a room, and share content.

security

The Intel vPro® platform of Lenovo ThinkSmart One delivers hardware-enhanced security, modern manageability, and improved stability to a wide array of devices. Plus, with ThinkSmart Manager, IT teams can allow for BIOS/SVP change management, prevent unwanted USB port use, and manage passwords centrally for BIOS, Windows, and Zoom Rooms accounts.

sustainability

Lenovo ThinkSmart products use recycled and/or sustainable packaging, as well as PCC recycled product material¹. All Lenovo devices are manufactured using low-temperature solder for reduced emissions. And by 2025, Lenovo aims to obtain 90% of electricity for global operations from renewable sources and remove one million tons of greenhouse gas emissions from the supply chain.

¹Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.

Lenovo ThinkSmart One with Controller

Services

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

LENOVO THINKSMART MANAGER

Lenovo ThinkSmart Manager is a versatile cloud-based software that provides a single-pane-of-glass view of an organization's entire ThinkSmart fleet and empowers IT teams to work from anywhere. Leverage the remote management capabilities of the Intel vPro® platform for proactive monitoring with real-time status view, better protection and security, and remote control, including deployment, configuration, and updates.

LENOVO PREMIER SUPPORT

As IT budgets contract, you need to reduce complexity, decrease operational costs, and find ways to increase efficiency from your in-house IT support teams. As an extension of your IT team, Lenovo™ Premier Support manages routine support tasks, freeing up IT to focus on strategic efforts that move the organization forward. Boost end-user productivity and limit downtime with direct access to elite Lenovo engineers who provide unscripted, advanced hardware and software support.

CO₂ OFFSET SERVICE

As the first in the industry, Lenovo offers this certification service to customers who wish to purchase their PC products CO₂-compensated over the device's lifecycle. Included in the hardware transaction, CO₂ compensation is based on realistic emission by product, covering production, shipment, and typical usage cycle (5 years). This service proactively supports reduction of CO₂ emitted in the atmosphere and compensates for environmental impact of business operations.

Take control of collaboration

Lenovo ThinkSmart Controller

The Lenovo ThinkSmart Controller is an intuitive 10.1-inch, 10-point touch display with the familiar Zoom Rooms interface that allows users to initiate and control the meeting, share content, and communicate easily. And no more smudges clouding the view, thanks to the Lenovo ThinkSmart Controller's anti-glare and anti-fingerprint display.

Lenovo IP Controller

The Lenovo IP Controller addresses the growing demand for HDMI on table with no lag, as well as PoE connectivity. The sleek 10.1-inch, 10-point touch display with the familiar Zoom Rooms interface allows users to initiate and control the meeting, share content, and communicate easily. Plus, because it's wall mountable and can be installed up to 100 meters from the compute, the Lenovo IP Controller creates a clean aesthetic ideal for the modern workplace.
