Package Contents

Installation

1. Punch a hole on the desk with a diameter of 49-55mm.
2. Peel off the adhesive release paper inside the tabletop fixed shell, place the mounting bracket into the shell, adjust the bracket and align it with the slot.
3. First, thread the cable of VCM35 through the wire hole of the mounting shell, then place the VCM35 on top, and then press the cable into the cable groove to align it.
4. Place the installed bracket into the hole on the desk, and rotate the bracket from the bottom to secure the mounting bracket.
