NEXT LEVEL RACING®

PRS1

The Next Level Racing® PRS1 Elite Reclining Seat is designed for sim racers who seek a tighter, more immersive fit while maintaining the adjustability and comfort of a reclining seat. Engineered for precision and control, the PRS1 delivers the bucket seat sensation while ensuring ergonomic support for long racing sessions.

Featuring adjustable lumbar support and a snug fit, the PRS1 enhances the racer's connection to the cockpit, providing maximum immersion. The breathable mesh fabric promotes airflow for comfort during intense races, while the smooth double reclining mechanism and double seat sliders allow for effortless positioning to match any racing style.

Compatible with Next Level Racing® cockpits and other sim racing cockpits on the market, the PRS1 is an easy upgrade for racers looking for a refined seating solution. With its precision fit and high-performance design, the PRS1 Elite Reclining Seat is built for serious sim racers who demand control, comfort, and an authentic racing experience.

Immersive feel of a bucket seat, adjustability and comfort of a reclining seat

Unique adjustable lumbar support, ergonomically shaped for racing comfort

Breathable mesh, smooth double reclining, and double seat sliders

Compatible with most sim racing cockpits for easy setup

Suits users up to 38" waist size

Snug fit for maximum racing immersion

NEXT LEVEL RACING®

PRS2

The Next Level Racing® PRS2 Elite Reclining Seat is engineered for sim racers who demand the perfect balance of performance and comfort. Designed to deliver the immersive feel of a bucket seat while offering the adjustability of a reclining seat, the PRS2 ensures an ergonomic and supportive racing experience for extended sessions.

Built with adjustable lumbar support and a snug fit, this seat keeps you secure and engaged, enhancing your connection to the race. The breathable mesh fabric promotes airflow to keep you cool, while the smooth reclining mechanism and double seat sliders provide effortless adjustments for the perfect seating position.

Compatible with Next Level Racing® cockpits and other sim racing cockpits on the market, the PRS2 is easy to integrate into your setup, offering a comfort-fit design that supports the body while maintaining the high-performance feel of a true racing seat. Whether you're pushing for lap records or settling in for long endurance sessions, the PRS2 Elite Reclining Seat is built for comfort, control, and total racing immersion.

Immersive feel of a bucket seat, adjustability and comfort of a reclining seat

Unique adjustable lumbar support, ergonomically shaped for racing comfort

Breathable mesh, smooth double reclining, and double seat sliders

Compatible with most sim racing cockpits for easy setup

Suits users up to 40" waist size

Comfort fit ensures the user's body is supported
