ERS3 HYPERCOOL

VENTILATED SIM RACING SEAT

6 INDIVIDUAL HI-FLOW
COOLING ZONES

The long-time problem of sim racers overheating during long sessions is finally over. Introducing the Next Level Racing® ERS3 Hypercool — the first reclining sim racing seat with a fully integrated active cooling system. With 6 internal cooling fans embedded within the seat and backrest, the ERS3 Hypercool is designed to keep racers cool and focused.

The ERS3 Hypercool is a complete plug-and-play solution with two fan settings. It's engineered for comfort, performance, and clean design, featuring premium SIMAERO mesh fabric, cold-molded foam, and our patent-pending double recliner levers for improved strength and adjustability.

Designed for serious sim racers — the ERS3 Hypercool is the only ventilated seat on the market that's fully integrated, ready to mount, and built for endurance.

COMPATIBLE PRODUCTS

- Next Level Racing® Elite Series Cockpits
- Next Level Racing® GTtrack cockpit
- Next Level Racing® GTtrack Frame Only
- Next Level Racing® GTRacer Cockpit\
- Next Level Racing® HF8 Pro Haptic Feedback Gaming Pad
- Next Level Racing® HF8 Haptic Feedback Gaming Pad
- Next Level Racing® GTSeat Add-on
- Next Level Racing® F-GT Cockpit*
- All third-party cockpits with bottom mounting options

6 Integrated Cooling Fans: Strategically positioned (3 in the seat base, 3 in the backrest) for maximum cooling performance during long racing sessions

All-in-One Ventilated Seat: A complete, factory-finished design with fully integrated electronics and internal cooling system with high and low setting

Premium SIMAERO Mesh & Fabric Upholstery: Optimized for airflow and ventilation to keep you cool during long sessions

Double Recliner System (Patent Pending): Dual locking recliners allow fast angle adjustment and increased structural rigidity under heavy loads

Includes Double Seat Sliders: Pre-installed dual sliders allow quick seat adjustment — ideal for shared cockpits or commercial setups

Wide User Compatibility: Ergonomically designed to comfortably suit a broad range of body types — from casual users to competitive sim racers

*For the F-GT Cockpit compatibility, the user is required to use the seat sliders that come with the F-GT cockpit and remove the shifter plate from the cockpit
