## USB-C Accessory

### for 4K60 Display Sharing & BYOM

 AirServer

### Unmatched Performance

Extend or mirror your display in up to 4K at 60 fps using USB-C DisplayPort Alt Mode capture, delivering smooth, full-motion video and animations.

### Instant Sharing

Can be powered by a USB-C certified power supply (not included), ensuring it's always ready while also charging your laptop.

### Guest Network

Provides a configurable guest network connection to the laptop over USB-C.

### 4K Camera Streaming

Stream up to four 4K cameras into your laptop using standard UVC/UAC interfaces — no drivers or apps required.

### Enhanced Connectivity

Connects to the base station over Wi-Fi 6E or via a wired USB-C dock with Ethernet connectivity (not included).
